Improve the sustainability of housing providers

WHY WE DO WHAT WE DO

HSC'S focus on the building asset is driven by its legislated mandate under the *Housing Services Act*. It also builds on our core programs and areas of in-house expertise.

We utilize our mandated revenue-generating activities as a means of supporting non-revenue-generating activities that build sector capacity and lead to positive outcomes.

WHAT MAKES *US* DIFFERENT

HSC recognizes that the governance, administration, legal obligations and tenancy of social housing buildings are different from private or other publicly operated facilities. We also understand the unique business challenges landlords face in operating buildings that serve community needs. **Clients that work with HSC benefit from:**

- **Services specially designed to address social housing business needs**
- **Hands-on support from people with deep functional business and social housing expertise**
- **Province-wide scope and knowledge that allows us to address problems no one else can and to meet individual as well as sector-wide business gaps**
- **Practical solutions that stem from our commitment to our clients and the community goals we seek to achieve together**
